**MEDIATION ON THE
BRINK OF FAILURE;
DEADLOCK UNBROKEN****Americans and Mexicans Re-
fuse to Yield Their
Positions.****HITCH OVER A MEXICAN CHIEF****Huerta's Men Insist That a Neutral
Candidate be Considered, but the
Wilson Policy Demands That Con-
stitutionalists Must be Favored.**

By Associated Press.
WASHINGTON, June 19.—Mediation stands on the brink of failure. Only concession by President Wilson or Huerta can save it. While the Niagaran conference failed, Minister Nason of Argentina, one of the three South American mediators, returned to Washington for a conference with Secretary Bryan and probably to see the President. He planned to start back tonight carrying word whether the conference shall proceed or disband.

Announcement at the White House that the President stands squarely on the principle enunciated in the statement of the American delegates seemed to make it certain that the United States will not be satisfied with anything less than the choice of a man approved by the Constitutionalists to head the new government. The firm attitude of this Huerta delegates for a so-called "neutral" seemed to hold out no hope of a break in the deadlock.

The situation, admittedly another crisis, was discussed in the Cabinet meeting and some sort of a statement from the President is expected within fully in case the mediation fails. Officials here said that further talk of armed intervention or of recognition of Carranza or Villa at this stage was unfounded.

Mr. Nason and Secretary Bryan took luncheon together privately and later the Argentine minister went to the State Department for a further conference. Neither would make a statement.

**A. B. C. MEDIATORS ABOUT
READY TO CALL IT OFF.**

By Associated Press.
NIAGARA FALLS, Ont., June 18.—The American and Mexican delegates held a final session today in the opposite town expressed by them in public statements explaining the type of man desired by each side for provisional president of Mexico.

Both sides having gone on record before the world, the prospect is that there will give way and that the deadlock will result in a complete breakdown of mediation.

Word was received today from Minister Nason of Argentina that he would not return until tomorrow from his trip to New Haven and Cambridge, where he received numerous degrees. The reference that he has been held today was therefore postponed until tomorrow. It may be determined then whether a common ground remains for an agreement.

Only the abandonment of the mediation discussion on the type of man and the continuance of the search for an individual acceptable to all parties can return the situation from its hopeless state toward the channel of possible solution.

Shortly before noon today the mediators announced formally that no conference would be held until it is clear that the American and Mexican delegates had gone to Washington. It is understood that he seeks to learn first hand if the American Secretary of State has any information which would make it seem advisable to continue the conference.

**CONDITIONS BAD IN
TEPIC, REFUGEES SAY.**

ON BOARD U. S. S. CALIFORNIA.
MEXICO, June 18, via San Diego, Cal., June 19.—Refugees arriving here today by the Pacific Mail liner City of Pinar report that conditions in the beleaguered city of Tepic are deplorable, but the censorship is so strict that no details are obtainable. Forty American refugees left for San Francisco today on the ship.

The long strain of the siege and the shortage of food are driving out even those foreigners who hitherto have been most obstinate in the defense of their business interests.

**TO RECALL LASCARINI
AS FOREIGN MINISTER.**

MEXICO CITY, June 19.—The opinion prevails in well-informed circles that Pedro Lascarini, who was Mexican foreign minister during the administration of the late President Madero, is again to be appointed foreign minister.

It is reported that he at first refused to accept the post, but was later persuaded by friends to do so.

Receiver for Bank.
CHICAGO, June 19.—The La Salle Street Trust & Savings Bank which was closed last week was placed in the hands of a receiver today. W. C. Niblack, vice president of the Chicago Title & Trust Company, was named for the position. Judge Williams who placed his bond at \$200,000.

Many Homes Tagged.
About 150 license tags have been issued to drivers by Special Officer J. W. Mitchell.

**DISPUTE OVER YOUGH BRIDGE
RENTAL IS AID IN COURT****Commissioners and West Penn Submit
Testimony Over Question
of Payments.**

Special to The Courier.
UNIONTOWN, June 19.—Testimony was submitted before Judge R. M. Umel today in the case stated which has been arranged between the county commissioners and the West Penn Railway Company to determine the amount the company should pay the county for the use of the Yough bridge in Connelville.

Prior to the time the bridge was taken over by the county the West Penn paid \$90 a month for the use of its tracks over that structure. Since the bridge was purchased in November, 1907, the matter has been in dispute.

The question at issue is the amount to be paid for the use of the bridge from November, 1907, to the same month in 1912, but the court's decision will also determine the amount to be charged from 1913 on.

Hermann Laub, a bridge expert and consulting engineer of Pittsburgh, and Chief Engineer J. L. Fritsch of the West Penn, submitted testimony and testimony as to the number of cars passing over the bridge every day were under discussion.

A MONSTER PETITION

Thousands of Stokers Serve Notice They Want Demands.
By Associated Press.
PITTSBURGH, June 19.—Thousands of Westinghouse strikers assembled at the Turtle Creek playgrounds today and signed a monster petition which later in the day the officers of the Allegheny Congregational Industrial Union plan to present to E. M. Herr, president of the Westinghouse Electric & Manufacturing Company.

The petition sets forth that the strikers are members of the union and they stand for the demands made upon the company two weeks ago. The purpose of the petition was to convince the management that fully 85 per cent of the working force was affiliated with the union.

Picketing continued during the night but there was no semblance of disorder until the Union Switch & Signal force went to work this morning. One arrest was made near the works. Bridget Kanny, secretary of the union, commanded the pickets last night.

STEERING GEAR BAD**Seamen Testify Empress Narrowly
Escaped Other Collisions.**

By Associated Press.
QUEBEC, June 19.—Capt. Sabie, second mate of the steamship Alden, testified at the Empress of Ireland inquiry today that when the Empress passed the ship on the St. Lawrence shortly before the fatal collision with the collier Storstad, he noticed that the Empress was steering badly and he had to port his helm to avoid the ship. This testimony was introduced by counsel for the Storstad's owners in corroboration of the testimony yesterday of James Galway, the quartermaster of the Empress, who said that the vessel's steering gear was defective.

"Were you afraid of a collision?" he asked. "I was. I was going to call the captain," said the witness. He added that the Empress had passed on the port side half a mile away.

Hans Olveron, another sailor on the Alden, corroborated Sabie.

ALLEGEDLY JAILLED.**Big Blast Explodes in Slate Quarry;
Test New Fuse.**

By Associated Press.
ALLEGANY, Pa., June 19.—Allegany was shaken last night by the greatest blast that was ever set off in the slate region when 30,000 sticks of dynamite, buried 105 feet deep in 28 holes, exploded at least 150,000 tons of rock.

The blast was a test of a new instantaneous fuse with a speed of 18,000 feet a second. It is said to have been the first time it was used in the United States. It having been heretofore employed principally in submarine work at Panama.

DELAY RATE DECISION.**Railway Case May Not Be Decided for
Two Weeks.**

By Associated Press.
WASHINGTON, June 19.—The Interstate Commerce Commission's decision in the eastern advance rate case will not be announced tomorrow, as had been expected in some quarters, and the indications today were that it would not be made public for several days at least.

Some of those best informed on the commission's procedure would not be surprised if it were not announced for at least two weeks.

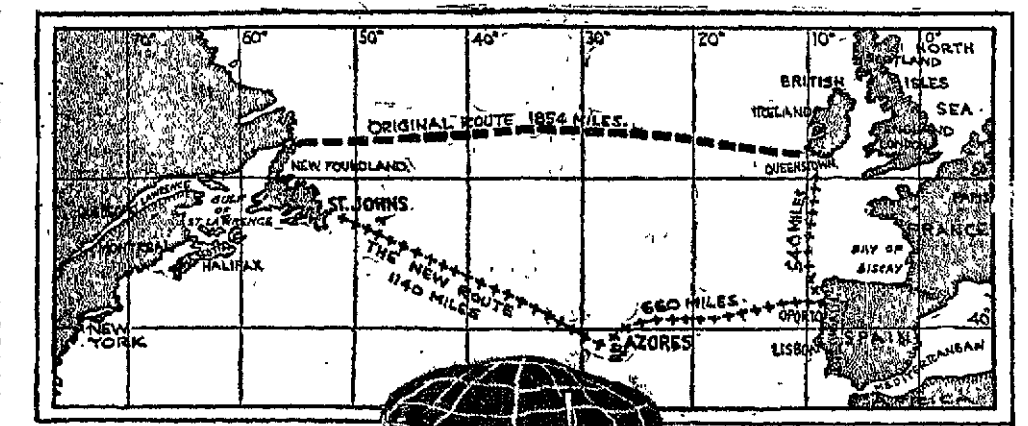

200 MINERS ENTOMBED.**Fire Causes Great Disaster in Belgium
Coal Operation.**

By Associated Press.
LIEGE, Belgium, June 19.—Two hundred coal miners were entombed in the Yielde, Belgium colliery near here when fire broke out today.

Two hundred of their comrades escaped when the alarm was given. The fire was still raging this afternoon and every effort was being made to rescue those entombed.

ARMY SQUAD FOLLOWED.

LONDON, June 19.—An attempt to burn a church at Bordenham, a south-eastern suburb of London was made last night by an army squad of militant suffragettes. The flames were quickly extinguished and the damage was small.

Daring Aviator Will Fly Over Ocean by Way of the Azores**MAP SHOWING CHANGE IN
ROUTE FOR WANNAMAKER
OCEAN FLIGHT****HILL CLIMB RACES
CLAIM TWO LIVES;
ONE DRIVER IS DEAD****Contestant's Car Overtakes
on Way to the Start-
ing Line.****SPECTATOR VICTIM OF APOPLEXY****Dr. VanKirk of Elizabeth Succumbs at
Summit Hotel as a Result of Exci-
tement; Youthful Spectator Has Leg
Broken When Struck by Racing Car.**

Two deaths resulted from the hill climb at the Summit yesterday, one of the victims being a driver and the other a spectator. The driver who was badly injured was not in a race, but was bringing his car to the foot of the hill preparatory to entering one of the events. The dead driver is J. E. Shafter of Pittsburgh, 33 years old. Dr. Joseph VanKirk of Elizabeth, a spectator, was stricken with apoplexy and died at the Summit Hotel. David Davis, son of Samuel Davis of Pittsburgh, was struck by a racing car and had his leg broken in two places. The professional races closed the two-day meet yesterday. There were plenty of thrills and some fast driving, but none of the men participating met with injury. Scores of spectators who insisted upon crowding the course had narrow escapes from serious injury. Young Davis was injured when the car driven by J. D. Keer of Richmond, Va., cut across and for a time threatened to plunge into the crowd of spectators beside the track.

The meet was successful from the standpoint of those who organized it. Considerable money was extracted for the privilege of standing beside a public road, and were equally successful in stopping traffic over the pile for a good many hours each day.

In the first race yesterday, for motorcycles, Ewing Herold drove the Indian machine of W. T. House over the first lap in a field of 10. His time was 3 minutes and 49 seconds. J. D. Keer, in a King car, won the second event against a field of 10, his time being 2:57.4. The third race was won by C. W. Johnson, driving a Buick, in 3:58.4. The fourth event was won by L. P. Fetterman, driving Arthur C. Smith's Simplex, his time being 4:09. The fifth race went to J. D. Keer in 2:57.

Shafter, the man who was fatally injured, met his mishap at the Turkey's Nest, on the trip down from the Summit. It is said he misinterpreted the flag which was waved to him in professional races the red flag stands for a clear course to drivers and a warning to spectators to get off the track. Shafter jammed on the brakes and his machine overturned. It righted itself, but not before Shafter's head had been cut and he had been internally injured.

Shafter spent a week in Connelville just winter when he demonstrated his automobile on exhibit at the industrial fair held in the armory under the auspices of the United Presbyterian Church. He became well acquainted here.

Dr. VanKirk's death is believed to have been brought on by the excitement attendant upon the races. He had been an eager spectator near the finish line and was stricken with apoplexy early in the afternoon. He was a cousin of Mrs. Corinne VanKirk Borland of McKeesport, who is well known here.

GETS GOOD PICTURES.**C. H. Bailey Films the Thrills of the
Hill Climb.**

Charles H. Bailey filmed the thrills of the hill climb at the Summit yesterday. Stationed at the Turkey's Nest, he caught all of the mishaps of the two afternoons. He coveted the races for the Solig company.

His was the only motion picture machine in the throng. It is said that the publicity department of the Auto Club of Fayette County was not particularly active that all photographers had to do the best they could without official assistance.

**LIUT. PORTE
© 1914 AMERICAN PRESS ASSOCIATION****LIUTENANT PORTE FIRST
TO ATTEMPT BIG FLIGHT****Daring Aviator of the Rodman Wan-
namaker Expedition Explains
His Plans.**

Special to The Courier.
HAMMONSPORT, N. Y., June 19.—The new route for the Rodman Wannamaker transatlantic flight from St. John's, N. B., to Queensstown, Ireland, by way of the Azores and Cape Finisterre, which was revealed, is the chief topic of discussion in aviation circles. The following statement was prepared for Lieutenant Porte to give out:

"Since it has leaked out, there seems no reason for further denying that the Azores route has for some time been under consideration. I have seriously considered this route, but thought it best not to make the matter public until too late for any one else to take advantage of my plans. As I have been to great trouble and expense in making the arrangements, until all details of the warping are completed it is improbable that I will be absolutely decided as to which route I will take."

In spite of Lieutenant Porte's qualified statement the fact remains that John Lansing Callan, a Curtiss aviator and a brother of Assemblyman Callan of Albany, sailed from Boston on June 4 for Porto Delgada, the principal seaport of the Azores. He took with him many spare parts and tools to repair the Wannamaker machine and was instructed to arrange for a gasoline supply. It was given full authority to complete arrangements there. It is believed here that Callan will charter a tugboat and cruise about the Azores then Lieutenant Porte is due there. Lieutenant Porte will not be able to tell just what island of the Azores group he will strike. After the Wannamaker machine leaves the Azores it will encounter what dangers are there, merely hand-to-hand flying. His distances from land will be comparatively short, and he can steer by coast line instead of compass. His main difficulty will be over when he finds Callan at the Azores.

Leaves the Hospital.
Lloyd Kelly, who was discharged today from the Cottage State Hospital.

JAP AVIATOR HIDES
IN CLOUDS AS A CO-
PILOT NAB HIM.

By Associated Press.
LOS ANGELES, Cal., June 19.—T. Kashimura, said to have been formerly an aviator in the Japanese army, hid in the clouds when Deputy Constable Myers tried to attach his biplane for a \$125 lien yesterday, according to Myers.

With the aid of a field glass, Myers located a rapidly vanishing speck in the heavens which he decided must be Kashimura and his biplane.

THE WEATHER FORECAST.

Showers tonight and cooler in north portion. Saturday cooler and generally fair. Is the noon weather forecast for Western Pennsylvania.

Temperature Record.
Maximum 84 93
Minimum 60 68
Mean 72 78

The Yough river remained stationary at 50 feet, during the night.

**A SANE FOURTH IS
AIM OF THE MAYOR;
ISSUES HIS ORDERS****No Dangerous Crackers Will
be Tolerated by the
Authorities.****24-HOUR LIMIT IS ANNOUNCED****Persons Discharging Firecrackers Be-
fore Midnight of July 3 Will be
Severely Dealt With, if Caught;
State Fire Marshal Issues Warning.**

Connellsville will not only have a safe and sane Fourth of July this year but the period immediately preceding it will be likewise, according to an order issued by Mayor Marietta this morning. It is directed that no fireworks of any kind shall be set off before the Fourth and only the most harmless pieces between the midnight of the third and midnight of the Fourth. Violators of this order will be punished severely.

Fireworks and explosives are already on sale in the novelty stores and children cannot restrain themselves from discharging in canoes, torpedoes, black catcrackers and all other forms of noise producers that are dangerous to life must not be set off on the Fourth. He included dynamite caps discharged in canoes, torpedoes, black catcrackers and all other forms of noise producers that are dangerous to life must not be set off on the Fourth. He included dynamite caps discharged in canoes, torpedoes, black catcrackers and all other forms of noise producers that are dangerous to life must not be set off on the Fourth.

The mayor declared that dynamite crackers, giant crackers and all other forms of noise producers that are dangerous to life must not be set off on the Fourth. He included dynamite caps discharged in canoes, torpedoes, black catcrackers and all other forms of noise producers that are dangerous to life must not be set off on the Fourth.

All explosives, no matter how harmless, must be set off on the streets and away from passersby or horses. All offenders against these orders are subject to heavy fines or imprisonment.

Incident to the approach of the Fourth of July, the public safety department, through F. W. Wright, fire chief, are urging that residents take unusual precautions to prevent fires. Independence Day has come to be one of the most dangerous days of the year. To prevent possibility of fire, J. L. Baldwin, state fire marshal, urges that an effort be made to have fireworks set off on the ground done away with wherever possible. These are declared to be the most dangerous as aerial pieces are extinguished before they drop back to earth.

Buckets made of water and kept handy for emergency use are suggested in a recent bulletin.

A general display of fireworks set off by an expert from some high point will eliminate some of the danger of the Fourth of July.

RETURNING THE MONEY**A. M. Haines Finds No Further Use
for the Band Stand Fund.**

A. M. Haines, volunteer treasurer of the fund being raised to paint and repair the band stand, is today returning the \$11 which had been contributed for that purpose as John Mitchell and R. L. Hannum are doing the work for nothing.

The contributors who will have their money returned are H. P. Snyder, J. Fred Kurts, Ladies Circle of the G. A. R.; J. B. Enos, A. D. Seiden, William Dull, Rockwell Marston, J. W. McClaren, J. L. Schick, W. D. McClinton, Tony Rondine, Wash Ford, A. E. Vanatta and G. E. Albright. All donated \$1 each except H. P. Snyder, who gave \$5 and Vanatta and Albright, who gave 50 cents each.

RURAL VISITORS PINCHED.**Indian Creek Valley Men Attacked and
Fall Into Hands of Police.**

Two residents of the Indian Creek valley came down to the city yesterday to see the sights. While here they fell into a devious way and the city hall cells yawned open for them before the night was far gone.

Charles Miner of Normalville, who was arrested for drunkenness and sweating by William Hildon, night watchman, was fined \$4.00 by the mayor this morning. Rodney Woodman of Indian Creek, who was picked up by Patrolman McDonald on West Main street, was discharged by the mayor after he had slept it off.

**SAFFRAS PEDDLER ADMITS
MURDERING A LITTLE GIRL****Jacob Taylor, Frequent Visitor Here,
Confesses to Brutal Crime**

Jacob Taylor of Mount Braddock, a frequent visitor to Connelville during the past few years as a peddler of saffras and other herbs, has confessed the police say, to the murder of Florence Dove, eight years old, at North Braddock on May 4. Taylor was arrested at Braddock Tuesday. He first declared the murder was committed by his brother, William, but later, the police declare, broke down and admitted that he was guilty.

The Dove girl was the victim of a particularly brutal attack. Taylor, it is said, admitted murdering her in a brutal manner. The knife and clothing Taylor wore on the day of the attack were recovered at the place he roomed in North Braddock.

Taylor was frequently in Connelville selling saffras. Other members of the family are also known here, and in the other towns in this vicinity. It is said that Jacob, the accused youth, who is 31 years old, had the habit of walking into homes when he found the door open, and of walking out with anything of value he might find, provided he was not detected.

ACCUSED OF MISBRANDING**Lemont Merchants are Fined Heavily
for Selling Bogus Drugs.**

Charged with selling adulterated and mislabeled drugs, Michael Kordic and Michael Phillips of Lemont were fined \$60 by Alderman Colborn yesterday afternoon. The information was made by Joseph Digiovanni of Philadelphia, who is a special agent of the state pharmaceutical examining board. The defendants are charged with selling bogus Jamaica ginger.

G. Beards of Lemont and J. H. Sweeney, who is connected with the Yough Chemical Company, will be given a hearing this afternoon on the same charge also preferred by Digiovanni. The hearing was to have been held yesterday afternoon but the arrival of the state chemist and attorney was delayed.

FINANCE THE FIGHT**Stetler and Semans Among Those on
\$12,000 Campaign Note**

That the campaign of Vance C. McCormick for governor and A. Mitchell Palmer for the Democratic nomination for United States senator was run on money borrowed partly from Fayette county politicians was disclosed when the Palmer-McCormick state campaign committee filed its expense account in Harrisburg. Bruce E. Stetler, who is treasurer of the county, and Semans, were contributors, together with six others in the form of a loan which amounts to \$12,000.

C. Greer Lowery, of Uniontown, was also a contributor. He is a member of the House of Representatives. He was not included in the list of angels.

DELAY IMPROVEMENT REPORT.**Absence of House Judiciary Commit-
tee Holds Up Speed Case.**

By Associated Press.
WASHINGTON, June 19.—Continued absence of members of the House Judiciary committee from the city has further delayed presentation of the report of the subcommittee on the investigation of the impeachment charges against Federal Judge E. W. Spores of Mecon, Ga. The report is not now expected to come before the entire committee before next week.

It is understood that a majority of the investigators held to the view that sufficient evidence was not presented to warrant an impeachment.

MUST EARN MONEY.**Only Those Who Do May Join Y. M.
C. A. Boys' Camp.**

All of the boys to participate in the Young Men's Christian Association summer camp which opens at Indian Creek on July 28 must earn the money. It costs \$7 for the two weeks trip, and some of the boys have already earned part of that amount.

Wives and mothers of earning the money will be discussed at a meeting with Secretary Baer tonight. The camp is open to any boy in town over 12 years, the only condition being that they must earn the money.

KICKS ON LICENSE.**Trick Bicycle Quits Performing
Rather Than Pay Fee.**

Harry Cramer, a trick bicycle rider who gave exhibitions on North Pittsburgh street yesterday afternoon, was stopped by the police when he refused to pay a license fee.

Cramer, who says he has traveled all over the country, giving exhibitions and taking up collections, was irate when he was stopped from performing. "This is the only place I have been in for a long time that asked me to pay a license," he declared.

Invents Cooling Device.
William Watt, superintendent of the Ranning-Connellsville Coke Company, has designed a new head for the Corvington coke extactor which is said to be more efficient in cleaning the oven and prevents breakage. He is working on a device to prevent breakage from the conveyor to the car.

Break in Water Main.
A break in the water main on Apple street near the postoffice during the night caused a half dozen miniature fountains to seep through the bricks, and flood the street.

Miss Rush Will Sing.
Miss Helen Bell Rush of Dawson will sing at Pen Mar with the Connelville Military Band tomorrow.

**PEACE RESTORED IN
CHURCH LEAGUE AND
"RINGERS" WILL GO****Managers of Various Teams
Agree to Revise Their
Playing Lists.****NO GAMES TO BE THROWN OUT****Lively Session is Held but Differences
are Patched Up; Big Athletic Meet
on July 4 is Being Arranged and
Committees are Put at Work.**

At a meeting of managers of the Sunday school league teams with five clergymen and a number of enthusiastic supporters in the Wells-Mills garage last night, it was decided to continue the season with an expurgated list of players. All of the "ringers" that have been playing are to be eliminated and managers are not to be allowed to make incursions into other Sunday schools for players.

There were fireworks for a while, but it was amicably agreed that it would be better to apply the "safe and sane" idea to the league and let it continue the season with teams truly representative of the churches under whose names they play.

According to the agreement, players who were arrested at Sunday school at this time the league organized will be eligible to play, but the lists will be submitted to the pastors for their approval and to the league and let it continue the season with teams truly representative of the churches under whose names they play.

The Methodist Protestants offered to throw out the game which they won from the Lutherans with Fisher and Jones. Prick league stars, as the battery, but the Lutherans consented to allow it to be counted, as throwing it out would disarrange the schedule too much.

After the meeting a proposal to hold a big athletic meet on July Fourth at Fayette Field could be secured, committees to arrange the details of the event were named. It is planned to give an afternoon program for 25 cents admission the races and athletics to be followed by a baseball game. There will be double jumps, pole vaults, a relay race and other events, arranged in classes, with medals for the winners.

The following committees were named:

Executive, Rev. J. L. Prouditt, chairman, Rev. C. C. Buckner, treasurer, Rev. W. J. Everhart, secretary. Events, Rev. W. J. Everhart, Howard Myers and Charles Crocker.

Medals, Rev. B. E. Cairns, Rev. C. C. Buckner and P. P. Baker. Advertising, E. D. Boehm, C. M. Glidden and S. E. Dobbie.

Publicity, S. P. Aske, F. W. Wright, E. J. Smutz, Thomas Simpson, Dr. H. C. Hoffman, D. H. Flick and Dr. G. W. Gallagher.

The following events were arranged:

Races—70 pound class, 50 yard dash; 30 pound class 50 yard dash; 18 pound class 50 yard dash; 100 pound class, 100 yard dash, open, 100 yard dash; 220 yard dash.

Jumps, 76 pound class—Running broad, running high, hop, step and jump, 100 pound class—Running broad, running high, hop, step and jump, 135 pound class—Running high, running broad, open, running high.

Throwing—Baseball, all four classes, shot, discus and javelin.

The funny stunts include potato race, sack race, shoe race, egg race and a far men's race. A marathon will be run from the Y. M. C. A. round the boulevard and will start at noon.

BAND CONCERT TONIGHT**Guster's Men Giving Program Prior
to Their Picnic.**

The Connelville Military Band will give a concert at the band stand this evening, prior to their departure tomorrow for Pen Mar. The band boys hope to stir up interest in the excursion through the medium of the concert. Band will have tickets to sell on the grounds. The concert will begin at 8:15.

A big crowd will go to Pen Mar tomorrow. It is the first excursion run over the new extension of the Western Maryland and indications are that the railroad will make special efforts to give fast, efficient service.

Leade, John E. Guster has arranged a good program for tonight's concert. Miss Martha Eaton will be the soloist. A request will probably be made on Maye Burnett to assign a policeman or two to the band stand to preserve better order than has prevailed heretofore. The program follows:

March, "Jim and Sammie" . . . Primi
O.V. "Morning Noon and Night" Solo, "High Jinks" . . . Primi

Miss Martha Eaton
Duet, Ida and Dottie Polan. "Losey"
Messrs Cannone and McColl
Grand Chorale, "Musical Joke" . . .

J. V. Hamm
March, U. S. A. National . . . Panella

Former County Resident Dead.
Benjamin J. Guster, a former resident of Brownsville, died recently in Atchison Kan., of injuries suffered when he was struck by a Missouri-Pacenic passenger train at Atchison. He was 72 years old.

MOUNT PLEASANT

MOUNT PLEASANT, June 18.—The third annual opening of the sewing school under the management of the ladies of the Civic Club was held in the Church street school building yesterday afternoon. The attendance was the largest since the opening of the school. No sewing was done yesterday but classes were formed and arrangements made for actual work to begin next Thursday afternoon. Twelve classes of ten students each were formed. Those who helped form the classes were the executive committee of the Civic Club, Miss Anna Smith, Mrs. E. M. Kennedy and Mrs. D. M. Piggman. They were assisted by Miss Anna Smith, Miss Adelaide Hanes and Mrs. Cora Patterson.

The children this year range in age from 7 to 14 years, and all of these can thread their own needle and are capable of understanding their teacher. Next week there will be a teacher for every class. The younger set of girls are greatly interested in the school and the girls coming in to help with this work are among the most socially prominent in town. The rule this year will be no child admitted to the school after next Thursday afternoon. This gives every child an equal chance to learn and makes it much easier for the teacher.

The ladies of the Civic Club are having the amusements on the Frick Park playground repaired and expect to open soon. The playground this year will be opened with a merry-go-round party in which the little girls are especially invited. The park commission has donated the bandstand to the ladies and they will remove it to the playground. Benches have been donated and will be placed on the bandstand. Awning are being placed over the sand boxes. The playground was used a success last season but the need for a playground is felt more than ever and more interest is being taken in it.

Council held a special meeting last evening and decided to make a turn out and cut in from the rear of the Donnelly building to the sidewalk with protected concrete curb. The property committee was given the power to act on the painting of the roof of the municipal building, to erect the fire wall and the cat stones and also to paint the fence around the park and the fence around Butler's. Sam Stevens called council's attention to the condition of the alley beside Mrs. Harriet Kuffel house and as this is the only approach to the grounds where the Chautauque will be held beginning the week of July 11th, this was put in the hands of the sewer committee with power to act. Joseph Hartwig and Tony Lombardi were present and made sewer complaints and Mr. Zeckhauser made a complaint of the condition of a sidewalk in the east end of town. A motion was adopted to erect a fire wall No. 1 on Center avenue. A resolution was passed that no dynamite cases, revolvers, blank cartridges or cannon cracker, are to be used on or before the Fourth of July, and that no fireworks be used between Church street and Jordan avenue on account of the hospital. The secretary was notified by a letter from the Hingham Construction Company for \$2,500, the estimate given by the borough engineer on work already completed on Mount Pleasant street.

Anne Scott the 14 year old daughter of Robert Scott who died at the hospital will be buried in the Mount Pleasant cemetery this afternoon. The body of William W. Noble was shipped from Uniontown and buried in the local cemetery yesterday afternoon. His mother, Mrs. Perry Noble, resides on Hickman street.

Miss Mabel Pauline Boyer, a student at Bucknell University at Lewisburg, has gone to England, N. Y., to spend her vacation before returning home for her senior year.

Miss Sarah Wardley has returned to her Connelville home after a visit paid her cousin, Miss Eleanor Goldsmith.

Mrs. M. S. Kuhn, daughters, Mary and Martha, and son, Milton, are the guests of Mr. and Mrs. Marsh at Hickman.

Mr. and Mrs. McArthur spent yesterday at Uniontown.

Mr. C. H. Smith, employed at the Hanes works, has purchased the E. D. Hichman property on Broadhead Road avenue and will remodel it.

Misses Bertha and Eva Shupe and Messrs. John and William C. Gibson are spending a few days with Felle and Walter Shupe at Barn Run.

Peter Wagner of Connelville was a caller here yesterday.

Mrs. Harriet Huff last evening joined a party of friends from Scottsdales and left for the Presbyterian cottage near Indian Head for a two weeks stay.

PERRYPOOLS

PERRYPOOLS, June 18.—County Superintendent Carroll held a teachers' examination in the high school building on Thursday. Thirty-six took the examination.

Mrs. H. F. Snyder and Mrs. Elmer Snyder and daughters, Marie and Maude, were visitors in Connelville yesterday.

Mr. and Mrs. J. W. Townsend and little daughter of West Newton, spent a few hours in town yesterday. The former's sister, Mrs. H. H. Stoen, they were returning from Allentown, Pa., where Mr. Townsend attended the undertakers' convention. They also visited Harrisburg and Philadelphia, making the entire trip in their automobile.

Edward Stout of Star Junction, was a business caller in town yesterday.

Edmund Martin, Misses E. H. Youngkin, Ada Buttermore, Ruth Luce, Margaret Nickel, Edith Keith, delegates to the Sunday School convention at Brownsville, returned home Wednesday evening.

Mrs. Elizabeth Luce and Miss Cynthia Reed are visiting friends in Washington county.

John Krolek is home from a medical school at Philadelphia to spend a vacation with his parents.

For a Week Menace.—Take Chamberlain's Tablets. They enable the stomach to perform its functions naturally. For sale by all druggists.—Adv.

Washing Won't Rid Hair of Dandruff

Dissolve It. That's Best Way.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arsenic apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be soft, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to preserve your hair, do by all means get rid of dandruff for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it brittle, stringy, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arsenic at any drug store. It is inexpensive and never fails to do the work.—Adv.

CONFLUENCE

CONFLUENCE, June 18.—Mrs. J. C. Newcomer of the West Side, is recovering from a bad case of blood poisoning, caused by running a nail in her foot.

The Sunkist Orange With the Different Flavor Ask for "Sunkist Valencias"

The Valencia Sunkist is the California Summer Orange—a sweet, juicy, luscious fruit, ripened on the tree.

Easy to peel, and practically seedless.

Some are dark in exterior appearance, some lighter in color. But all are a deep red inside and sparkling with healthful juice.

Oranges are picked in California every day in the year, and the Late Valencia is one of the very finest ever grown.

Glove-picked, tissue-wrapped, shipped right from the tree—you get it fresh with the real tree-ripened flavor.

Don't buy merely "oranges." Buy the

Sunkist Valencias. See what you are missing in not getting this brand.

Try These Lemons, Too

Use Sunkist Lemons to serve with fish and meats. Use the juice wherever you may use vinegar. These are the best looking and the best lemons sold. Juicy, fully flavored and practically seedless. There's a vast difference in different brands of lemons. Try "Sunkist" and see.

Beautiful Rogers Silver in Exchange for Wrappers

Go buy a dozen each of Sunkist oranges and Lemons and save the wrappers bearing the Sunkist trademark. Then send in the coupon below and find out how to exchange the wrappers for beautiful Rogers Silverware for your table.

FRIDAY EVENING, JUNE 19, 1914.

RIDES WITH DEATH.

Automobile races are always rides with death. Scarcely any cent of this character is concluded without injury and loss of life. The Uniontown races proved no exception to the rule. The town is sadly up to date.

Safety first had no part in the proceedings. The sentiment was related to the depths of the mines. The more danger the greater the excitement and the better the spectators liked the entertainment.

But if the audience was in a fever the drivers themselves were in a frenzy. The latter were consumed with a desire to annihilate space and cut up time. They knew not fear and were blind to danger. They cared not for their own lives or the lives of others. They were victims of speed-madness.

Now that the races are over, and we are able to contemplate with coolness and consider with calmness, it might be well to take up the question whether such sports should be permitted; and, if permitted, what regulations should be imposed in the interest of public and private safety.

CHINESE PIG IRON.

Since the Democrats have torn down what they termed the Chinese Wall which the Republicans have maintained around this country to protect American industry against the inroads of foreign goods manufactured by cheap labor, Chinese pig iron has appeared on the Pacific Coast and has taken that market from the Birmingham district furnacesmen who have hitherto had a practical monopoly of it.

The prompt and practical manner in which Representative Underwood's statehoodship has rested upon his own congressional district and his own people is a striking example of the high order of political prejudice. While the workings of the Democratic tariff law may be made justice to the Democratic sections which are largely responsible for it, the whole country unfortunately suffers at the same time from the same cause, and some portions of it suffer even more than the Birmingham district.

But the South if suffering is consistent, while the Pacific Coast is inconsistent and prosperous. The coast citizens have for many years fought against the importation of coal labor, and have sought to erect a Chinese Wall against the Oriental. Yet the same citizens now find no objection to the products of coal labor let in by the Democratic demolition of the Protective Tariff.

The Pacific Coast had a large hand in making a Democratic administration, but it did not perhaps have their result in view, and it will have an opportunity to vindicate itself.

PITTSBURG TO PANAMA.

The consignment of a cargo of Pittsburgh coal in barges via the Ohio and Mississippi to New Orleans destined for Panama reminds us that the opening of the Panama Canal ought to open wider the markets of the Pittsburgh coal operators, and the latter should be ready to grasp their opportunity.

Pittsburgh coal can be dumped from the mine cars into river barges which will carry it to the mouth of the Mississippi by the cheapest possible route in America. No other competing coal field has this advantage. The West Virginia and Kentucky fields will ship via Norfolk and the Atlantic Coast. The Alabama coals, it is true, may reach the Gulf by river routes, but they do not compare in quality with the Pittsburgh coal.

The further down the Ohio Pittsburgh coal is the better it is located for shipment to this trade. The Marshall county, West Virginia coal, much of which is held by Fayette county investors, will be most favorably situated in this respect. It is the western portion of the true Pittsburgh seam, running somewhat thinner in body and higher in sulphur content, but its value as a steam or heating coal is unimpaired by these facts.

The opening of the Panama Canal offers great possibilities to all manner of American products and not the least to Pittsburgh coal.

WHAT, INDEED?

"The Industrial Workers of the World have no objection to the newspapers that would ruin the business of this state for the sake of electing Penrose," says the Uniontown New Freedom Standard, solemnly dedicated to civic righteousness and desecrating Democracy.

There are no newspapers engaged in any such reprehensible task, but the Democratic organs have to say something, and they are not very particular what they say.

It would have been more in order for our flaccid contemporary to have asked what should be said of a political party which has brought a prosperous nation to the industrial condition reflected in our 50% active coke industry and which seems determined to put out the balance of the coke oven if it can.

The Western labor unions which are fighting among themselves with such violence as to cause a request for United States troops are trying to kill each other and they are going to succeed.

The good old summer time is just beginning in Conneltsville. We have the Cheviots and the Firemen's Convention before us.

RIGHT.

Colonel Roosevelt does not hesitate to say that Judge Aiston G. Dayton of West Virginia, whom the labor unions are trying to impeach, is all right. President Roosevelt said the same thing about the purchase of the Tennessee Coal and Iron property by the United States Steel Corporation, and he stuck to it. That's one of the Colonel's virtues. He sticks to what he says and does.

But there was no reason why he should not do so in these two particular instances; in both of them he was and is exactly right.

Fayette county seems destined to have another hanging. These functions are not of a pleasant nature to anybody, but it seems sometimes necessary to have them in order to way the red tide of murder which flows faster and fuller when the law is laggard in punishing crime.

The health authorities report that they have little to report because the city is too distastefully healthy. A very satisfactory report.

The Democratic administration explains that the price of meat is raising because the calves are, not being raised. In other words the calves are not given the right steer. In this respect, however, the baby bovines have nothing on the Democratic party.

The bandstand has at last come to its destination in Conneltsville is not without public spirit.

Charles Balsley attends all the great events now. He is in the reporter class. After he sees the event everybody can see it, if they have the nickel.

In the Conneltsville coke trade the watchful waiting policy is not confined to the consumers.

The Russians who are trying to blow up the czar by bombs in order to get him out of office are bum politicians. In this country they would make him run at a Pennsylvania primary on a non-partisan ballot and put his name at the bottom of the ticket.

To give their political bacon the Democrats are depending upon the only thing they couldn't destroy, namely, the crops.

The Colonel's voice may prevent him from speaking for Pichot in Fayette county, but the Peerless Orator will speak for his trusty friend John Lester Kaffer. The charm of oratory will not pass us wholly by.

The Saint Lawrence disaster is evidently not one of those accidents at sea for which nobody is responsible. Everybody admits a share of the blame.

We are obliged to admit that some industries seem to prosper under Democratic rule. There's the chicken stealing business, for example.

The Scottsdale authorities are determined to enforce safety first upon the town's architecture. "Do it now," is the right rule in matters of this kind.

The Baltimore & Ohio physicians are discussing how to keep the men from getting sick, not how to cut their legs off or cure them later. That's the medical application of safety first.

The campus are now breathing the air of freedom and mingling sociably if not merrily with the ants and other bugs and crawling things.

The report that Indian Creek bass are suffering from enlargement of the liver caused by eating too many locusts is suspected of being another Democratic invention.

THE LIMIT

Shall the flag be made in England?
Kinder rises one up a bit;
Kinder starts the blood a billin'
Just to merely think of it.
Shall the flag be made in England?
In a foreign land be made?
This is certainly the limit
Of the foul work of free trade.

Shall the flag be made in England,
Far away, across the deep?
Down with sentiment and feeling?
Buy our bunting where it's cheap?
Where are free-trade tones of country?
They're no patriotic pride.

What's the flag but so much dry goods?
Make it on the other side.

Shall the flag be made in England?
Kinder rises one up a bit;
Kinder starts the blood a billin'
Just to merely think of it.
Work and wages they have taken,
body and higher in sulphur content,
but its value as a steam or heating coal is unimpaired by these facts.

Now they want to take the flag.

Abe Martin.

Next t' listenin' t' somebody describe a play that ain't nothin' as fireless as waitin' for a parade.

"The fellow who used t' laugh so loud at mother-in-law jokes now has a married son who'd starve t' death without his wife's mother."

PONDEROUS PERSONAGES.

DANIEL WEBSTER.

By GEORGE FITCH.
Author of "At Good Old Sivas."

Daniel Webster, the most tremendous orator who has ever lived in America, was born and educated in New Hampshire—after which feat the said state has remained ever since in a partially exhausted condition.

Webster arrived on earth in 1752, just before the close of the Revolution, and eighteen years afterward delivered a Fourth of July oration in Hanover which contained many words hard and payable on easy terms.

At nineteen, he became Dartmouth College's greatest alumnus and later went to Boston, where he studied law and chose his job for breakfast with an eye toward the future preservation of the republic. At the age of thirty-one he went to Congress and a few days later he began to make speeches against the administration.

After the first speech, it was generally conceded that when Webster had anything to say, the opposition had better get into the bomb proofs. He continued making speeches for many years on various subjects and most of these speeches can be bought today bound in buckram or leather or full Morocco.

Webster was at that time a frail lad, with a head several times too large for him. He was intensely earnest and chose his job for breakfast with an eye toward the future preservation of the republic. At the age of thirty-one he went to Congress and a few days later he began to make speeches against the administration.

After the first speech, it was generally conceded that when Webster had anything to say, the opposition had better get into the bomb proofs. He continued making speeches for many years on various subjects and most of these speeches can be bought today bound in buckram or leather or full Morocco.

Webster was a grand lawyer and the Dartmouth College case being which the vested interests have defended themselves ever since. He also knocked out one of the first monopolies—the Fulton Steamboat company.

He served in Congress off and on for many years and also in the Senate, but he was fond of being Secretary of State, holding that office twice. He got four electoral votes for President once, and could have been Vice President when William Henry Harrison was elected, but he refused the nomination.

That was the worst guess ever made by mortal man. Harrison died a month after he was inaugurated.

In his later years Webster was a stern and man with massive overhanging eyebrows, tightly scaled mouth and large craggy face. He looked like two tons of dynamite ready to go off and when he spoke, it sounded like a volcano spouting dictionaries. He dedicated more monuments and was the orator of the day on more occasions than any other American and each time he bore a large irregular hole in the enemies of the Constitution. Webster was the greatest friend of the American Constitution and the worst enemy of his own—consequence of which he became extinct at the age of 70 while still hard at work.

Webster was the greatest friend of the United States when it needed friends and enemies 101 per cent patriotism. He and Noah Webster worked closely together, Noah dictating new and deadly words for his celebrated dictionary and Daniel trying them out on the enemy and making them popular.

Most of these speeches can be bought today bound in buckram or leather or full Morocco.

The New Firm

Successors to E. Dunn, took possession of the store Monday morning and business will continue as usual until after stock-taking and the final details of organization have been completed.

The new proprietors, Messrs. Ralph Cuthbertson and Charles M. Roe, are both men of broad experience in the field of merchandising and have planned great things for the store's future. While little has been given out, it has been positively stated that the character of merchandise to be handled by the new firm will be of a high class and that the reputation of the old store's honest business methods will be upheld. The best markets will be frequented, stocks will be greatly enlarged and everything will be done that knowledge and skill in buying can do to make the store a pleasant and profitable place to buy. As the old sales force has been retained, we are sure you will still feel at home at Dunn's, and for our own mutual interests we welcome you to call and get acquainted.

The E. Dunn Store

Cuthbertson & Roe, Proprietors.

INVENTORY TIME

Means Bargain Time

June is the Union Supply Company's semi-annual inventory month, and there is going to be a great clean up in the Shoe Departments. The stocks are heavy; we are overloaded. The general business depression has effected the demand for shoes, but there are certain lines we must sell, and we will sell them at great sacrifice in prices. There are very good styles for women, and there is a great variety of boys' and girl's knock-about school shoes. There are all the new shapes and styles in men's dress shoes, in tans, whites and blacks. There is a great stock of working shoes for men and boys. The normal prices are low, but the sacrifice, cut prices are great big bargains. It is a good time to buy footwear, and the Union Supply Company stores are a good place to get them. Try us.

MANGANESE MEN IN DUNBAR INSPECTING FURNACE EQUIPMENT

No Agreement Concluded but Resumption Prospects are Bright.

REPAIRS ARE TO BE STARTED

Full Details of the Plans Which are Being Worked Out Indicate that the Dunbar Property Has a Bright Future; New Concern to be Strong.

Indications point to an early resumption of the furnace plant at Dunbar. During the past week officials of the American Manganese Company visited the Dunbar Furnace Company's operations. It was stated that while no agreement had yet been reached by which the property is to be taken over, it is expected that negotiations will be concluded shortly.

Reports from Dunbar are to effect that repairs will be started on the furnace within the next two weeks. J. W. Donahay, C. J. Wendlandt and T. O. Lamb of Duluth and L. W. Stevenson of Minneapolis were the visitors.

Details of the proposed consolidation of the furnace and other properties of the Dunbar Furnace Company and the other properties of the Cuyuna Duluth Iron Company and Cuyuna Manganese Iron Company have been secured.

It is proposed to put the entire ownership of control of said properties in the American Manganese Manufacturing Company incorporated under the laws of Pennsylvania, which is to increase its authorized capital stock to \$4,000,000 preferred and \$6,000,000 of common stock. The preferred stock is to be entitled to cumulative six per cent dividends and is to be preferred both as to assets and dividends.

What is believed to be a conservative statement places the assets of the new company at the immense total of \$10,000,000, including the Dunbar properties at \$2,600,000; Cuyuna Duluth properties at \$10,100,000, and Cuyuna Manganese properties at \$20,500,000.

It is estimated that under the amalgamation there should be a net profit of \$1,016,226, divided as follows: Dunbar, \$388,220; Cuyuna Duluth, \$19,000; and Cuyuna Manganese, \$2,000. This is based on the report made by H. H. Sanders, mining expert of Philadelphia, after an inspection of the properties.

Inasmuch as it takes less blowing facilities to run a furnace on manganese products than on pig iron, it is admitted by blast furnace men that Dunbar has sufficient blowing and stove capacity to run one stack on each almost continuously. There is one of sufficiently high manganese contents blended out, ready to mine this year, to make 25,000 tons of manganese pig iron, 30,000 tons of spiegel, and 15,000 tons of ferro-manganese. It has been estimated by Mr. Sanders that the Cuyuna Duluth mine will produce 150,000 tons in 1914 and 250,000 tons or better in 1915, and that Cuyuna Manganese will produce 180,000 tons in 1914 and 200,000 to 250,000 tons in 1915. The product is to be melted at and in addition there will be outside earnings at Dunbar, as follows: On sand plant, \$20,000; railroad, \$25,000; electric plant, \$5,000; glass company, \$3,000; rental of furnace houses, \$10 at \$5 net above upkeep \$11,930.

Mr. Sanders estimates that the ore will cost Dunbar this year \$4 per ton delivered furnace, and the calculations of earnings are based on that price. According to published reports of the Lake Superior Iron Ore Annual of 1913, the ore should not cost over \$3.55 delivered Dunbar. If they can equal the cost made by other mines, this will give an enlarged profit of \$115,500 and after the first fiscal year the greater production will increase the profit. By stripping off the over burden of sand over the Manganese mine and working the mine as an open pit, the ore cost will be reduced \$1 per ton from the \$4 cost shown in the above estimate, the output of the mine will be doubled and the profits of the combination should be increased from one-half to three-quarters of a million dollars per annum.

The Manganese company is to become the owner of all the property at Dunbar, including furnace properties, timber lands, sand plant and quarry, real estate, houses and improvements, coal lands, railroads, etc. It is part of the plan that there is to issue to the promoters, or their nominees, \$1,774,000 of common stock. It is part of the plan that there may remain upon the Dunbar properties the fol-

lowing existing obligations, all others being discharged: \$109,000 23 judgment in favor of Joseph estate, \$6,000 Bessie mortgage, held by Equity Trust Company \$10,400.55 purchase money coal mortgages.

The Manganese company is to create two mortgages upon all the Dunbar properties to be known as first general Dunbar mortgage and second general Dunbar mortgage, subject only to the Joseph judgment and Bessie and purchase money coal mortgages. The first general mortgage shall be security for an issue of \$10,000 of bonds and the second general Dunbar mortgage for an issue of \$750,000 bonds, both issues to bear interest at the rate of six per cent per annum.

The indebtedness of the Dunbar Furnace Company to the Semet-Solway Company is to be treated as being in addition to the liabilities for settlement of which stock is to be issued. The Semet-Solway company for the purpose of permitting a thorough test of the manufacture of manganese products at Dunbar, has offered a contract to supply coke and is to accept preferred stock of the Manganese company in satisfaction of the secured claim against the Dunbar Furnace Company in bankruptcy.

In the list of assets the Dunbar properties are estimated as follows: Coal lands, Upper Freeport vein, about 1,500 acres, at \$200 per acre, \$300,000.

Mining plant, \$100,000.
Sand stock, 800 acres, at \$200 per acre, \$160,000.
Sund mill and equipment, \$65,000.
Timber lands and cleared lands, 5,000 acres (3,000 of same timbered) \$12,000.
Houses 165 in all, \$150,000.
Blast furnaces, \$350,000.
Railroad and equipment, \$200,000.
Electric plant, \$45,000.
Water supply plant, \$50,000.
Interest in Semet-Solway by-product coke plant, \$250,000.
Five hundred shares Pennsylvania Wire Glass Company, \$50,000.
Blue stone quarry, \$50,000.
Total Furnace company properties, \$2,600,000.

NEW DATA READY

West Virginia Geological Survey Announces Publications.

These have just been issued from the press two new publications by the West Virginia Geological Survey, Morgantown, W. Va. These publications are described in the following extracts from the printed circular of the Geological Survey, and the reader is also told how to secure the publications in question.

Detailed report on Kanawha county issued under date of April 1st, 1914, with 670 pages, containing 38 half-tones plates and 14 figures in the text; also a case of three maps covering the county, topography, and geology of the county separately. In addition to the description of the Kanawha coal series and all the geologic features of the county, the geologic map gives the structural contours on the Pittsburgh coal horizon north from the Kanawha and Elk rivers, and on the Kanawha Black Point south and east of the Elk and Kanawha rivers, as also the location of the anticlines and synclines showing their relations to the natural oil and gas pools of the county. The soil map and report of the experts of the United States Department of Agriculture covering this region of the state should be of special value to the agricultural and horticultural interests. Price, with case of maps, delivery charges paid by the Survey, \$25.00, but in combination with other publications, see circular. Extra geologic maps, \$100 each, topographic, 50 cents each.

Revised edition coal, oil, gas, geologic and iron ore map, issued under date of February 1, 1914. It contains a thorough revision of the coal, oil and gas developments, several anticlines being added and others corrected from later observations. The names and addresses of 918 coal companies operating in the state are given by counties, as well as the locations of the mines. The names of many new towns, postoffices, etc., are added, and the valuable iron ore deposits of the state are also indicated on this map, and all the special features of previous editions corrected and brought up to date, showing the approximate areas of the several coal series, as well as the oil and gas pools. Scale 8 miles to the inch. Price, enclosed in strong envelope and delivered by mail, 50 cents each, but in combination with other publications, write for prices to West Virginia Geological Survey, Postoffice box 448, Morgantown, W. Va.

Receiver for Coal Company. H. C. Hamilton, a banker of Girard, Ill., has been appointed receiver for the Farmersville Coal Company. The liabilities are \$30,000, while the assets are undetermined.

The Bede-Thompson Debate on "Socialism" a Notable Event

NEW features of the Chautauqua here will cause more widespread interest than the debate on "Socialism" between H. J. Adam Bede, who was for eight years a Republican congressman from Minnesota, and Carl D. Thompson. Both Socialists and anti-Socialists will want to hear this debate. It has been placed on the evening program in order that everybody will be able to be there.

Hon. J. Adam Bede is one of the best speakers on the Chautauqua platform today. During the time that he occupied a seat in our national legislative halls he was known as "the humorist of the house," so witty were his sayings and so excellent his humor. Often when in the midst of the ordinary work of congress, when there were many empty seats and general listlessness, Bede would rise to speak. Immediately the empty seats would fill and the feeling change to one of intense interest. In presidential campaigns Bede has made speaking tours on which he has been given the biggest city dates by the Republican national committee.

Mr. Carl D. Thompson is a graduate of the University of Chicago and at the present time the head of the department of information of the National Socialist association. He is a very ready speaker, profoundly interested in his subject, and his wit is said to be equal to that of Mr. Bede.

DICKERSON RUN.

DICKERSON RUN, June 19.—A large force of men has been working for the last week excavating and building concrete piers for the new bridge which will lead from the new Y. M. C. A. building to the new round house. The height of the bridge will run from 21 to 50 feet and will be run across the entire yard which has 42 tracks. The structure will be of steel and concrete and will be located 60 feet east of the new scale house. Carpenters have been here inspecting and measuring the Dawson bridge which has been in need of a new floor for about a year. It has been patched by men lately that it looks like a crazy patch. The county commissioners have decided to have a new floor laid at once and that will not be any too soon as it is in a very dangerous condition.

Carl McCormick of Conneltsville was calling on friends here last evening.

Mrs. C. M. Backfoot has been visiting her father B. F. Snyder at Perryopolis for a few days.

17x30 inches, 40c each

The towels are on display on the second floor, in the Domestic Section.

This display and sale is an exceptional opportunity to see towels for every use; to see new ideas in gift towels; to see towel sets for baby—and towel sets for June brides.

It is a time to buy good towels for less than they regularly sell for. Such a big variety at special prices are shown for the first time in Conneltsville, as well as we can remember.

There's a vast difference between these sound towels and the skimpy sorts common to sales generally. These are clean, crisp and fresh; perfect of weave (with the exception of one lot mentioned elsewhere), full size, superior in make and material, sturdy, dependable and attractively finished.

Some are price-lowered; others are unchanged from the original markings, because they were priced under the usual rates.

Hotels, rooming-houses and private homes can profit by this let-go. Prominent in the sale are:—

35c and 39c Hemmed linen Huck towels—Lot, 25c
Lot of 75c Huck towels, plain and fancy, 50c
Lot of 1.25 and 1.50 fancy Huck towels, \$1. each
Lot of 25c Turkish towels, 20x40 in. 19c each
Lot of 35c Turkish towels (seconds) 25c each
35 Sampson bath towels—ridge weave—29c each

GUEST TOWELS.

—All linen huck, plain, striped or figured. Hemmed, scalloped or fancy damask borders with place for initial.
Special—25c, 35c and 50c each.

ATHLETES' TOWELS.

—A specially woven Turkish towel with the shortened loops a trifle harsh, but productive of a healthy glow to the skin when "drying down."
Size 21x42 inches, 35c each.

COLORED BORDER TURKISH.—for gifts if you wish, when embroidered or lettered.
13x37 in. to 26x48 in., 35c to 75c each.

Matching wash cloths, 12x12 in. and 13x13 in., 5c to 12½c each.

IMPORTED TURKISH TOWELS.—fine, soft and close woven, good-looking and durable. All white, or white with colored borders.
20x40 inches and upward, 50c to 75c each.

SEE THE MATCHED SETS OF TOWELS TO YOUR ORDER.

TOWELS FOR BABY'S BATH

Soft, downy Terry cloth bath towels and wash cloths lettered "Baby," in light pink or baby blue. Two 20x40 inch towels; four 12x12 inch cloths 2.50 the set; unlettered, 1.30 the set.

SETS—ADULT SIZE.

Lettered Terry cloth, one wash cloth and one towel, 85c set.

Set of Two Towels, each 20x40½ inches, and two 12x12 inch wash cloths, 1.25, embroidered with one letter on each, or 98c unlettered.

Set of Three Towels—two 20x40½ inches, one 26½x51½; three wash cloths. Embroidered, 2.50 the set; plain, 1.67 the set.

Set With Bath Rug 26x48 inches; two 26½x51½ towels and two 12x12 wash cloths, embroidered wreath and letter—the set, 4.50; plain, 2.75 set.

STAMPED LINEN HUCK TOWELS

Linen huck towels, guest or regular sizes, stamped in a variety of new designs. Ends hemmed, scalloped or ready to crochet. 25c, 35c, 50c and up. Bath towels stamped, or to be stamped with any design or letter.

87 MEN'S BLUE SERGE SUITS AT 13.95

They are of good serge, guaranteed all-wool and unadulterated.

They are lined with mohair, soundly made for practical service and fashioned in the same and partially plain style that nine out of every ten men who pay low prices for their suits believe to be the best and safest style to wear.

About one hundred fancy suits are on sale, also. These are in colors—solid, mixed, striped or checked. The styles are varied, and in good taste; the patterns are up-to-date and the textures are sound.
